

# Raja Festival 2026 - Project Overview (Client Document)

Date: 9 March 2026

Project: Raja Festival 2026 (Web + Admin Platform)

Tech Stack: Next.js 16, React 19, Firebase (Auth, Firestore, Storage), Zustand, CCAvenue payment integration

## 1. Objective

This platform manages the full Raja Festival journey for users and organizers:

- Public festival information and cultural storytelling
- User registration/login and profile
- Bookings (Show, Stall, Donation, Free Entry Pass)
- Participation applications (Sponsor, Performer, Award, Raja Kumari, R)
- Assessment workflow with anti-reentry quiz controls and live camera/m
- Admin CRM and operations dashboard for all registrations, bookings, p
- logs

## 2. Solution Architecture (High-Level)

- Frontend: Next.js App Router, responsive pages for web and admin
- Authentication: Firebase auth for users; dedicated admin auth store fo
- Database: Firestore collections for users, bookings, donations, partici
- settings, and logs
- Media Storage: Firebase storage for uploaded photos/documents/videos
- Payment: CCAvenue flow with request/response/status sync routes
- Authorization: Admin permission-based navigation and page access (Pe

---

## Part A - User Interface (Client-Facing)

### A1. Public Navigation & Core Pages

Main user menu and mobile menu include:

- Home (`/`)
- About Raja (`/about-raja`)
- Events (`/events`)
- Gallery (`/gallery`)
- Our Guests (`/guests`)
- Donate (`/donate`)

Additional static and information pages:

- FAQs (`/faqs`)
- Notice (`/notice`)
- Terms and Conditions (`/terms-and-conditions`)
- Privacy Policy (`/privacy-policy`)
- Refund/Cancellation Policy (`/refund-cancel-policy`)

### A2. Home Experience

Home page includes modular sections:

- Hero and cultural branding
- Event participation CTA section
- Featured cards and festival highlights

- Ticket/highlight section
- Gallery preview section
- Donation banner CTA
- Embedded video section
- Booking CTA section

### A3. Festival Participation Pages

Users can apply for multiple tracks:

- Sponsor (`/sponsor``)
  - Captures individual/organization details
  - Confirmation flow + profile tracking
- Performer (`/performer``)
  - Performance type, solo/group, group members, track details
- Award (`/award``)
  - Multilingual award details, category selection, profile details
- Raja Kumari (`/raja-kumari``)
  - Candidate profile + photo upload, age and eligibility handling
- Raja Queen (`/raja-queen``)
  - Candidate profile + photo upload, age and eligibility handling
- Drawing (`/drawing``)
  - Candidate details, DOB-based age/category logic, photo upload

### A4. Booking & Transaction Flows

- Show Booking (`/show``)
  - Step flow: date -> seat selection -> user details -> payment
  - Real-time seat handling and booking validation
- Stall Booking (`/stall``)
  - Vendor/stall booking workflow and payment integration
- Donation (`/donate``)
  - Donor flow with type handling and receipts
- Free Entry Pass (`/free-pass``)
  - Protected route (login required)
  - Personal + location + members form (up to 20 persons)
  - Aadhar, contact, address validations
  - Optional photo upload
  - One-pass-per-user guard
  - Free booking confirmation + email notification

Payment result pages:

- Success (`/payment/success``)
- Status (`/payment/status``)
- Failed (`/payment/failed``)
- Cancel (`/payment/cancel``)

### A5. User Authentication & Identity

User auth pages:

- Login (`/login``) with email/password and Google sign-in
- Register (`/register``)
- Forgot Password (`/forgot-password``)
- Reset Password (`/reset-password``)

### A6. User Profile Dashboard (`/profile``)

Single profile dashboard consolidates all user records with tabs:

- Shows
- Stalls
- Entry Pass
- Donations
- Sponsor
- Performer
- Award
- Raja Kumari
- Raja Queen
- Drawing

Profile capabilities:

- Status-aware cards (pending/confirmed/etc.)
- Pass modal access for participation cards
- Quick actions and support info
- Direct deep link tab support (`?tab=...`)

## A7. Assessment Feature (Post-Confirmation)

Assessment route:

- `/assessment/[assessmentType]/[applicationId]`

Enabled tracks:

- Raja Queen
- Raja Kumari
- Drawing Senior
- Drawing Junior

Flow highlights:

- Admin enables assessment for confirmed candidates
- Candidate can start from profile card
- Sequential step completion with persisted progress in Firestore
- Re-entry protection: if quiz is left in-progress, attempt is marked abandoned

Assessment steps (track-config driven):

- Video upload
- Quiz
- Image upload / media bundle (track-dependent)
- Self-introduction / text step (where configured)
- Zoom meeting slot/instructions

Live camera & microphone implementation:

- Quiz explicitly requests browser permissions using `navigator.mediaDevices`
- Video + audio constraints are enabled together
- Live camera preview remains on-screen during quiz
- Permission denial blocks quiz start

## A8. Entry Pass Dependency for Participation

Competition/participation flows include checks and alerts linked to entry-pass eligibility flow before proceeding in sensitive tracks.

---

## Part B - Admin Interface (Operations CRM)

## B1. Admin Authentication

- Admin login page: `/admin/login`
- Redirect to `/admin/dashboard` after successful auth
- Theme-aware login UI with secure credential flow

## B2. Admin Dashboard (`/admin/dashboard`)

Central executive summary:

- Counts: sponsors, performers, Raja Queen, Raja Kumari, awards, draw bookings, entry passes, users
- Revenue cards: stall, show, donation, total
- Recent bookings table with latest records and status

## B3. Bookings Management

### 1. Stall Bookings (`/admin/bookings/stalls`)

- Search/filter + paginated table
- View booking detail modal
- Confirm/cancel and cancellation workflow
- Participation marking
- Document viewer for uploaded files

### 2. Show Bookings (`/admin/bookings/shows`)

- Search/status/date/participation filters
- Detail modal and cancellation modal
- Confirm/approve/reject status actions
- Participation modal and tracking

### 3. Entry Pass Management (`/admin/entry-pass-management`)

- Manage free pass records from delegateBookings
- Search + status + participation + date filters
- Confirm/cancel actions
- Participation marking
- Detail modal + pagination

## B4. Seat & Layout Control

### 1. Stall Seats (`/admin/stalls`)

- Real-time stall availability map
- Status model: available, booked, blocked
- Search and status filters
- Grid/list views
- Multi-select and bulk block/unblock operations

### 2. Show Seats (`/admin/show-seats`)

- Date-wise seat state management
- Grid and list view modes
- Filter by availability status
- Multi-select bulk block/unblock
- User detail popup for booked seats
- Recently released seats highlighted

## B5. Raja Activity Management (`/admin/raja-activities`)

Tabbed CRM for:

- Sponsors
- Performers

- Award nominees
- Raja Queen
- Raja Kumari
- Drawing

Common capabilities across tabs:

- View candidate/applicant details
- Confirm/reject status updates
- Event date/time assignment (where applicable)
- Admin notes
- Delete controls (role-guarded)

## **B6. Assessment Admin**

### **1. Assessment Lifecycle (`/admin/assessment`)**

- Track-wise monitoring (Raja Queen, Raja Kumari, Drawing Senior, Drawing Junior)
- Enable assessment for all confirmed candidates per track
- Candidate-level session monitoring and detailed modal

### **2. Assessment Quiz Settings (`/admin/assessment-quiz`)**

- Track-wise question bank management
- Add/edit/remove questions
- 4-option answer structure validation
- Save custom question banks to Firestore
- Reset to default template

## **B7. Content Management**

### **1. Gallery Management (`/admin/gallery`)**

- Multi-image uploader
- Grid/list management views
- Mark/unmark showcase images
- Bulk select, bulk update, bulk delete
- Edit metadata modal

### **2. Distinguished Guests (`/admin/distinguished-guests`)**

- Add/edit/delete guest records
- Category handling (special/spiritual/artist)
- Image upload and ordering
- Active/expected guest controls

## **B8. Business Settings & Pricing**

### **1. Price Settings (`/admin/price-settings`)**

- Stall pricing configuration
- Show pricing configuration
- Discount components (early-bird/bulk structures in pricing module)
- Sync state and save workflow

### **2. System Settings (`/admin/settings`)**

- Stall settings tab
- Show settings tab
- Event configuration save workflow

## **B9. Governance & Security**

### **1. User Management (`/admin/users`)**

- User stats cards

- Search/filters

- User table with status/sign-in/joined details

- CSV export

## 2. Admin Management (`/admin/admins`)

- Add/edit/delete admins

- Role and granular permission assignment

- Permission category handling

## 3. Pass Scanner (`/admin/scan`)

- Camera-based QR scan + fallback parser

- Manual verification input mode

- Verifies entry pass, show, stall, performer, award, Raja Kumari, Raja Queen

- Result modal with pass and booking details

## 4. Activity Logs (`/admin/logs`)

- Search + date/action/admin filters

- Pagination

- CSV export for audit trail

---

## 3. Cross-Cutting Capabilities

- Responsive UI for desktop and mobile across user/admin flows

- Email notifications for key journeys (booking/applications/pass)

- Firestore real-time updates in operational modules

- Role/permission-aware admin navigation and page rendering

- Booking/document handling for admin verification

## 4. Deliverables Covered in This Build

User side deliverables implemented:

- Home, About Raja, Gallery, Events, Guests, static policy pages

- Sponsor, Performer, Award, Raja Kumari, Raja Queen, Drawing

- Free Pass with validations + profile integration

- Profile dashboard with all booking/application tabs

- Pass modal for application cards

- Assessment feature with live camera/mic in quiz

- User login/register/forgot/reset flows

Admin side deliverables implemented:

- Admin login

- Dashboard analytics + revenue + recent bookings

- Stall/show booking management

- Stall/show seat management

- Entry pass management

- Raja activity management across all categories

- Assessment + assessment quiz controls

- Gallery and distinguished guests management

- Donation management

- User and admin management

- Price settings + system settings

- Pass scanner and activity logs

## 5. Notes for Client Communication

• This platform is not only a public website; it is a full event operations controls.

• Assessment is integrated end-to-end from candidate status to monitoring

• Free Pass, competition applications, and booking records are unified in dashboards for transparent tracking.
